Analysis of Employer Feedback Forms

Expectation of Company From students for Online Campus Recruitment Process.

1 response

Students registrations are low, need to increase the number for WLP program. Students who are shortlisted for the online assessments need to go through the guidelines and instructions about the assessment tool well before appearing for the online assessments. As it's a virtual mode due to pandemic, technical issues will be a major obstacle in appearing the online assessment. However, would want the college TPO and students to go through the guidelines and clear the assessments seamlessly. To add up, it would be good if the students practice well before giving the Business Evaluation round, by being clear in their communication, confident and appear the preplacement talk and orientation sessions to get more acquainted with the rounds of interviews. Thank you so much for encouraging the students for this program. Looking forward for more students this year from your college.
