7.1.1 Report on Gender Equality Initiatives

Gender sensitization refers to the raising sensitization of gender equality concerns. It is the process of creating awareness regarding gender equality issues and modifying the behavior and views that people hold about themselves and other genders. This process helps in examining people's "personal attitudes and beliefs and questioning the 'realities' they thought they knew. The need for this sensitivity has been felt and realized through times immemorial and in almost all kinds of human existence, across the globe. It is no wonder that education of both boys and girls with a gender-based framework is widely acknowledged as being a single and most powerful vehicle of self-advancement and fulfillment of developmental outcomes for present and future generations of children.

Institution in association with Baya Karve Stree Abhyas Kendra has running counseling cell for students. Ms Anagha Kulkarni was appointed as a Counselor to help students to solve their problems related to mental health.

Students of the Institution participate in curricular, extra-curricular, cultural and sports events. Girls students enrolled in the Institution got equal chance of placement opportunities where both male and female students are invited for pool campus drive.

In a more specific way, education of the girl child is widely acknowledged as the foundation of national development and plays an important role in ensuring a safer, healthier, more environmentally sound world.

In MKSS's KB Joshi College, a program titled "Gender Sensitization (Baya Karve Women's Study and Research Centre)" was conducted on 10/12/2021 in Online Mode for all students.
